- For Grading Syllabus, Fee Structure and Detail Information in Grading kindly contact your respective Coach.

Jumping Grades

Occasionally students can 'skip' a grade and double grade. The requirements to be able to do these are discretionary between the Club Instructors but are outlined below.

- A student is proficient in another style and it is inappropriate to make them grade from 'beginner' level. These students will be graded in at an appropriate level, agreed with between the student and the Instructors. There will be no more grade jumps.
- A student has been training at their current grade for a minimum of 6 months and missed their last grading for a **genuine** reason (such as going abroad, job interview, and exam etc). However the student **MUST** have shown sufficient progress to justify the double grade and must be a regular attendee to classes (i.e. once a week is not sufficient). Grades above Blue will not be considered to double grade.
- Members who have recorded over 18 classes on their attendance card AND shown sufficient development.
- Wanting to 'catch up' with friends is NOT a reason to double grade.
